If you've ever visited a flower farm, you know how exciting it is. With rows and rows of beautiful flowers for as far as one can see, it's a sight to enjoy. There's a smell in the air that the best perfumers can't duplicate and a feel to the earth that only comes from hard work and love.

Inspired by my love of flowers, I've created a collection that reminds me of a Flower Farm. It's a variety of floral prints mixed with dots, stripes, and a snail or two, all in my favorite colors.

I'm excited to share The Flower Farm as there's nothing like fields of flowers to bring joy to our hearts. I can almost smell the flowers... join me as we make some happy quilts and fun little projects.

Welcome to The Flower Farm.
